Accountabilities and Measures: (List a series of at least five and no more than ten statements describing the major activities and end results of your position. Emphasize the end result—**WHAT** is done, and **WHY** it is done. Do not emphasize **HOW** it is done.

1 Wrote chapter on initialization in TS2000 Software Architecture.

2 Did software design of initialization & channels - TS2000 System Software Design Document.

3 Implementation/debug of initialization & channels portions resulting in release of TS2068 System ROMs.

4 Made several application software cartridges for both production cartridges and demonstration cartridges.

5 Wrote Test Spec for Rev. 5.0 of TS2068 System Software, but decision was made not to update system ROM, so this was dropped. Bugs found in current software while doing this lead to dropping Bank Switching Controller Chip.

6 Studied Sinclair microdrive for feasibility of implementing Timex Disk Operating System & CP/M.

7 ~~Software~~ software design of CP/M BIOS for microdrive.
